

AL MAZEED/USJ EN MISSION

Al Mazeed is an NGO founded in March 2020 as part of the USJ en Mission initiative led by USJ students. Driven by our Alma Mater's commitment to nurture **every person and the whole person**, encourage active engagement in building a more just society, and promote peace, we mobilized to support our peers amid Lebanon's severe sanitary, financial, social and economic crisis since 2019, the Beirut Port explosion, and ongoing insecurity.

Today, *Al Mazeed/USJ en Mission* strives to guide, support, and educate women and men, dreamers and changemakers, capable of providing creative solutions to reshape the present and inspire a bright future. Our goal is to drive lasting change, for a kinder society and a fairer world. We aim to protect our shared home by respecting and safeguarding Creation through projects developed and implemented with and by our young engines of change, the sole guarantors of a better future. Our primary focus is on the members of the USJ and HDF communities – retirees, staff, instructors, and students – coming together as one supportive family to face all challenges.

Our ecological, socio-humanitarian, cultural, or health-related projects focus on empowering individuals to grow and take control of their lives.
