

## FAMILY MEDICINE CENTER (CMF)

Founded in October 2018, the Family Medicine Center (CMF) aims to be a key provider of primary healthcare in Lebanon.

### Mission

CMF's mission is to provide accessible, continuous, comprehensive, and patient-centered healthcare for all ages.

### Vision

CMF's vision prioritizes providing comprehensive and continuous care, through a team led by a family physician, working closely with patients and their family. It embraces the crucial role of family physicians and practices in the healthcare system, recognizing that strong primary care leads to better outcomes, greater efficiency and higher quality care.

### Our Areas of Expertise

- Providing primary care for all ages
- Conducting periodic medical examinations
- Administering vaccination plans based on national and international guidelines
- Monitoring post- acute care
- Promoting health and prevention
- Providing travel medicine consultations
- Sharing expertise with the Ministry of Public Health and other partners
- Serving as a training and clinical research facility for Family Medicine residents

### The CMF Clinics

- The Primary Care Clinic (CSP), which joined the network of primary health centers of the Ministry of Public Health in December 2021.
- The Social Pediatric Clinic (CSE)
- The USJ Clinic
- The Travel and Vaccination Clinic
