

PHD IN ELECTRICAL AND ENERGY ENGINEERING

Campus Where The Program Is Offered: CST

OBJECTIVES

- Prepare candidates for an advanced, specialized academic level, enabling them to meet current and future challenges in the fields of electrical engineering and energy.
- Develop skills that help candidates remain committed and succeed in quality research work.
- Equip candidates with methods to effectively communicate research results both through publications and oral presentations.
- Train candidates to pursue academic, leadership or entrepreneurial positions in the fields of electrical engineering and energy.

ADMISSION REQUIREMENTS

Candidates must:

- Hold the Lebanese Baccalaureate or its equivalent.
- Hold a Master's degree in engineering or its equivalent.
- Ensure consistency between their Master's and PhD disciplines.
- Have a minimum average of 12/20 or equivalent in the Master's degree.

PROGRAM REQUIREMENTS

- Validation of 180 ECTS credits (12 course credits and 168 credits for the preparation of a PhD dissertation).
- Maximum duration of 6 years for a full-time dissertation (8 years for part-time).
- Publication as first author in peer-reviewed, indexed journals or conference proceedings of two scientific papers based on dissertation results.
- Participation in the PhD days.
- Write and submit a dissertation report.
- Positive assessment from two reviewers.
- Dissertation defense before a jury.
