

AI IN TRANSLATION

[Click here to register.](#)

Program Objectives

- Introduce participants to essential AI concepts and how they apply to language processing and translation.
- Explore how to use LLMs like ChatGPT and JAIS for translation tasks, especially with Arabic.
- Use practical tools to support terminology, document handling, and productivity.
- Provide tools and workflows to handle audiovisual content.
- Automate repetitive tasks and streamline file handling using AI tools.
- Address ethical concerns, limitations of AI, and the translator's critical role in the loop.

About the training:

- **Dates:** 5, 12, 19 and 26 November, 2025
- **Timing:** 4:00 - 6:30 PM
- **Modality:** Online
- **Fees:** \$755

A training certificate will be delivered upon completion of the course.
