

The Leader's Shift.

FROM REACTIVE TO CONSCIOUS.

FROM TRADITIONAL TO TRANSFORMATIVE.

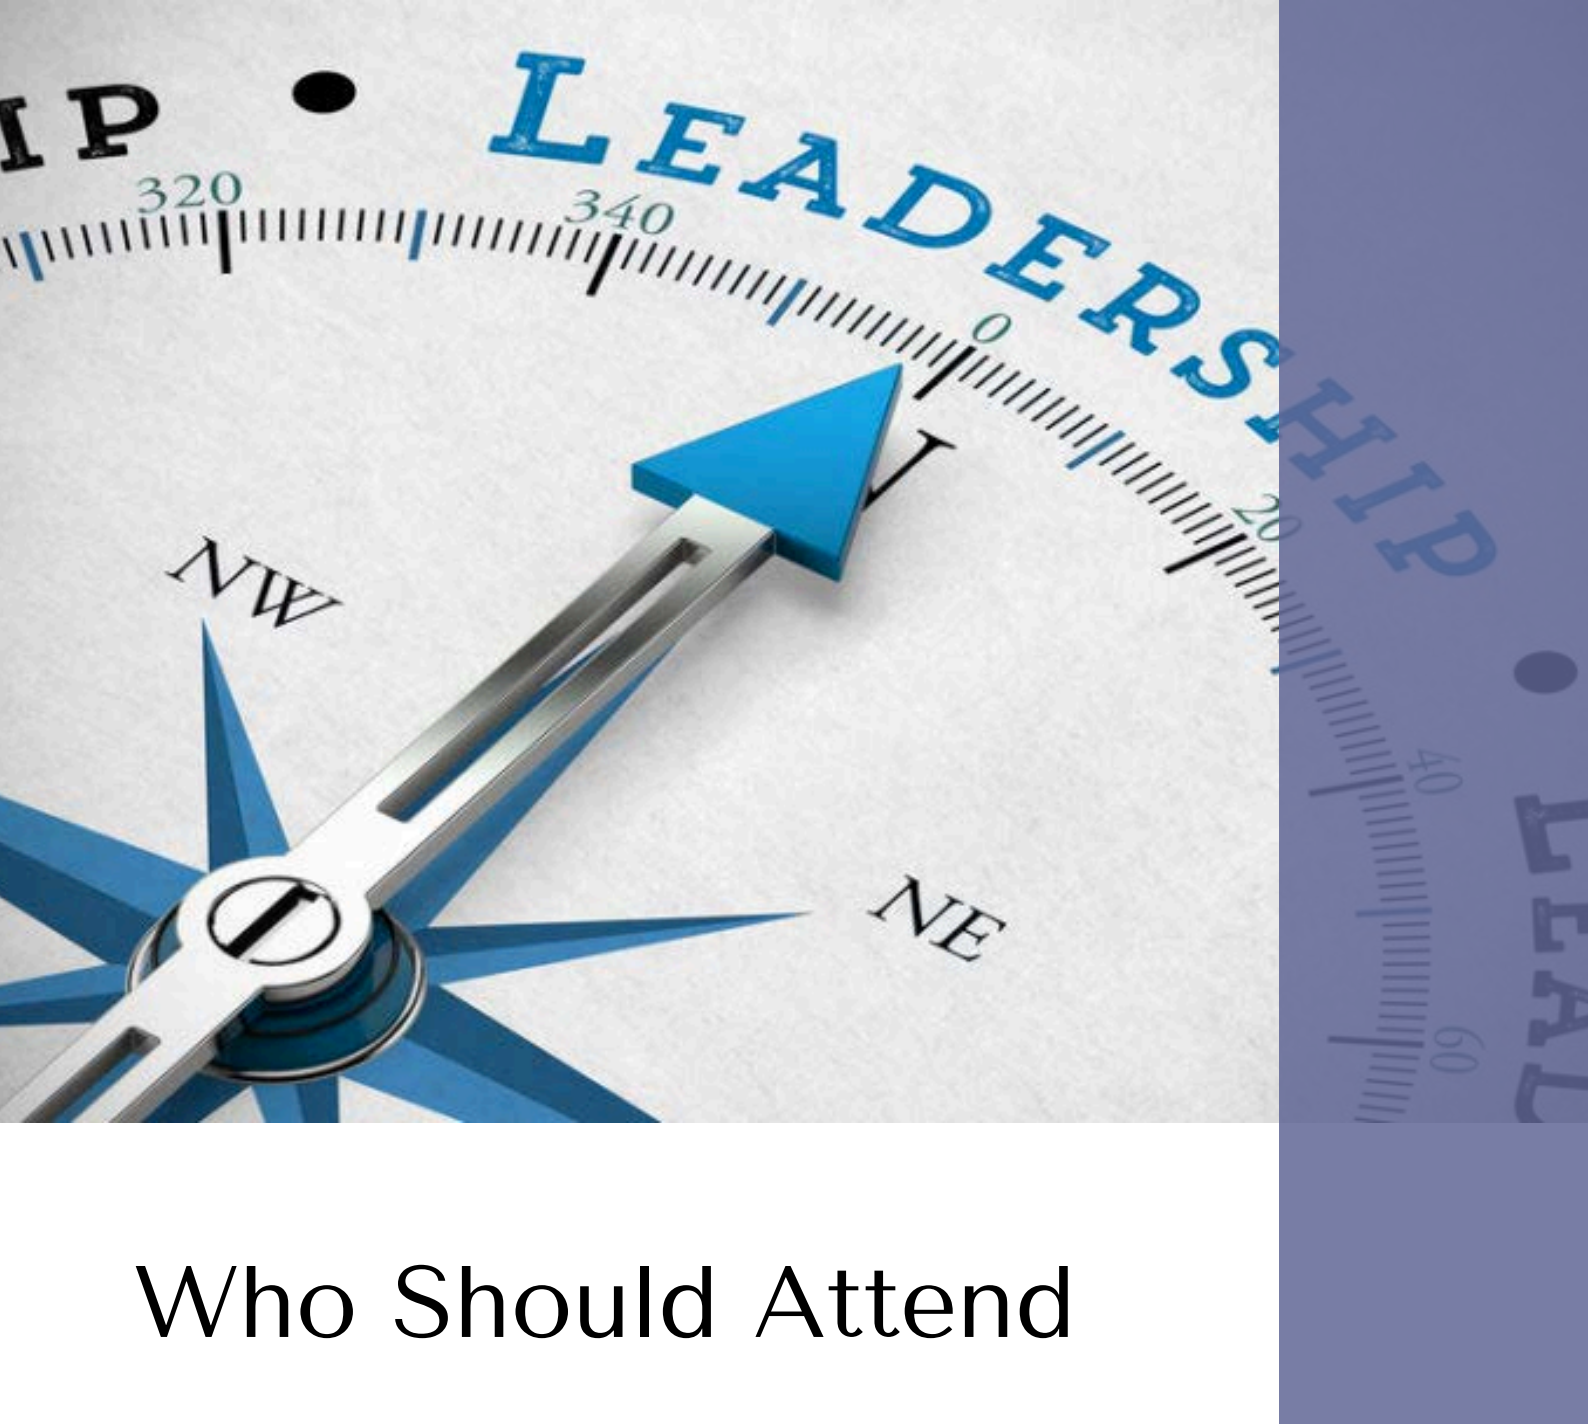

CERTIFICATE

Building Future-Ready Leaders

This advanced leadership program, developed in collaboration between CFP-USJ and Konsult, is designed to build future-ready, emotionally intelligent, and strategically agile leaders. Through 35 hours of in-depth learning, the curriculum equips participants with the tools to lead from within, design resilient strategies, navigate technology, and foster inclusive cultures. Each module blends cutting-edge research, practical tools, and real-world applications to ensure impactful learning.

Who Should Attend

- Mid- and senior-level leaders
- Managers and team supervisors
- Professionals stepping into leadership roles
- HR, L&D, and People & Culture specialists
- Entrepreneurs and founders
- Anyone leading teams through change, complexity, or growth

Learning Objectives

- Strengthen self-awareness and emotional mastery.
- Lead with trust, authenticity, and conscious presence.
- Design and communicate clear strategic visions.
- Apply creative, agile, and innovative leadership approaches.
- Coach individuals and teams effectively.
- Navigate complexity using systems thinking.
- Use AI ethically to enhance leadership decisions.
- Foster well-being, inclusion, and resilience.
- Shape sustainable and purpose-driven organizational cultures.

Learning Outcomes

By the end of this program, participants will be able to:

- Demonstrate self-awareness and regulate emotions to lead with presence.
- Communicate authentically and build trust-based relationships.
- Apply design thinking and agile principles to strategy and problem-solving.
- Craft and communicate a clear, inspiring vision.
- Foster creativity, innovation, and cross-team collaboration.
- Conduct effective coaching conversations and facilitate psychological safety.
- Use systems thinking to navigate complexity and lead across silos.
- Understand AI's role in leadership and apply ethical, data-informed decisions.
- Promote well-being, inclusion, and resilience within teams.
- Lead cultural transformation through purpose, storytelling, and sustainable practices.

Training Modules

Module 1: Leading from Within

Self-Mastery, Presence & Emotional Precision

This module merges human insight with technological intelligence. Participants will learn to coach with depth, leverage AI responsibly, and think in systems. It equips leaders to engage their teams meaningfully while navigating data, ethics, and digital complexity.

Module 2: Architecting Vision

Strategic Design Thinking, Innovation, Agility & AI-driven Leadership

In this program, leaders shift from reactive, traditional management to conscious, transformative leadership — learning to envision long-term impact, map stakeholder dynamics, and design strategic, systemic interventions. Through a blend of strategic thinking, systems awareness, agile leadership, innovation mindset, and responsible AI-driven insight, participants build a “leadership playbook” that enables them to inspire teams, adapt to change, and guide their organizations with purpose and resilience.

Module 3: The Coaching Edge

Conversations That Transform & Empower

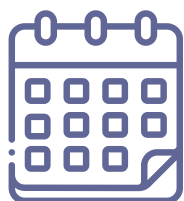

This module equips leaders and aspiring executive coaches with a practical toolkit of coaching models, processes, and skills to drive meaningful development. Participants learn to coach — guiding team members from their current reality to desired outcomes — by contracting effectively, practicing deep listening, building trust, and fostering growth through feedback and reflection.

Module 4: The Regenerative Culture

Leading Wellbeing, Inclusion & Long-Term Impact

This closing module focuses on leadership sustainability, emotional well-being, and cultural regeneration. Participants will learn how to embed purpose, resilience, and belonging into the heart of their teams and organizations.
