
“Europe in the XXI Century”
A Rome-Paris
Summer Programme on Europe
June 27, 2016 – July 14, 2016

Why on Europe?

The topic will be not only Europe, but also the integration of the majority of its states in the supranational entity called European Union. Its complex functioning is the outcome of several historic events and political compromises that brought its member states together. For many centuries, Europe has been a breeding ground for national rivalries which turned into wars, some of which became global. It was precisely the craving for peace that triggered the European integration process.

Why Rome and Paris?

Both cities constitute the very heart of the European integration. The rivalry and competition between France and Germany are among the reasons that provoked two violent and dramatic global wars. Together, France and Germany decided to cooperate with the aim of pursuing a long-lasting peace. At the same time, Italy is one of the founding members of the European Union and Rome is the city where the first formal step towards the European integration was made.

WHY LUISS and Paris-Dauphine?

Both universities are located in the centre of the respective host cities. Their campuses present a modern study environment with classrooms, libraries, e-resources, sports facilities and cafeteria. LUISS and Paris-Dauphine share the mission of educating future generations of executives, entrepreneurs, leaders and scholars through an innovative educational approach and thanks to their privileged relationship with the business world.

WHY choose this programme?

BECAUSE it will be a once-in-a-lifetime experience

BECAUSE it will give you a comprehensive understanding of the EU functioning

BECAUSE you will take a journey in the very heart of European institutions

BECAUSE in a short-time period you will experience different European lifestyles

BECAUSE it will give you the chance to discover the cities from a cultural, historic and artistic point of view
