Register to Meet the Professionals on <https://tinyurl.com/usj-meetpro19>

Meet the professionals - Guideline

The speed dating is:

- A one on one meeting between a senior professional and a student.
- A 15 mn guidance meeting where professionals help students building their professional career and getting accurate information about the career evolution they can expect.

How does it work?

- Twenty professionals will be present each one behind a desk.
- The professional receives a list of 3 students who registered for this meeting.
- After 15 minutes, the students move to attend another meeting and the next student on the list takes his place.

Workshops

Workshops and conferences aim to help students and Alumni to enhance their professional skills. Relevant topics have been selected to answer our visitors' needs. Free entrance.

Continuous Education

Relying on the skills of well-chosen experts, the Regional development and external programs office (DRPE) accompanies the various activity sectors of each educational institution or enterprise.

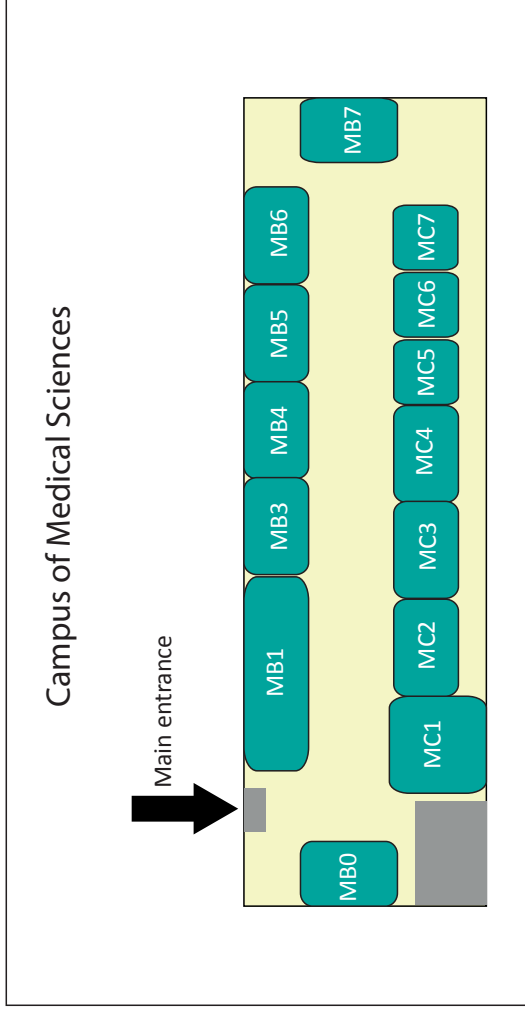

Its mission is declined in three axes of work:

- Continuous training
- Advisory training
- Management of academic projects

Career and Placement Office

The Career and Placement Office (Service de l'Insertion professionnelle) aims at helping students and young Alumni building up their professional project by providing free training sessions or helping them writing their CV.
